The deadline for registration is January 25, 2010.

It is important to review course content before attending; however, on-site registration will be accepted on a space-available basis.

Call ICPI at
(703) 657-6900
for details.

Who should attend?

The PICP Installer Technician Certificate Course is designed for contractors who are presently doing residential and/or commercial segmental paving projects or who wish to move into the permeable interlocking concrete paver (PICP) market. The companies might already be installing PICP, or are aiming to expand into the PICP market. Participants should be experienced contractors, **and must hold a current ICPI Level I Concrete Paver Installer Certification.**

Why Should You Attend?

Knowledge—Industry professionals share knowledge of industry guidelines, practices and advances applicable to the construction of interlocking concrete pavers.

Recognition—Certificates of Completion will be awarded to all individuals who successfully complete the course and pass the examination.

Promotion—Paver installer program training can be a powerful marketing tool for your business by further

establishing your credibility as a knowledgeable installer, contractor or industry professional.

On-going support—ICPI reinforces your knowledge by making available technical literature, guide specifications, marketing support, website listings, press releases and other certificate programs.

Course Objectives

- Help potential and existing PICP contractors learn how to meet industry-established guidelines for residential and commercial PICP applications.
- Broaden, evaluate, and recognize knowledge of individuals that have successfully completed the course and passed an exam.
- Enhance the credibility of individual contractors and provide additional industry credentials.
- Serve design professionals and the general public by improving the value and quality of PICP installations.

Program Content

- PICP overview and systems
- Job planning & documentation
- Job layout, flow & estimating quantities
- Soil & site characteristics
- Sub-base & base materials
- Edge restraints
- Bedding & jointing materials
- Paver selection & installation
- Maintenance

Disclaimer and Understanding

The Interlocking Concrete Pavement Institute ("ICPI") Concrete Paver Installer Certification Programs are intended to communicate industry guidelines to paver installers on estimating, planning and executing residential and commercial projects and to educate individuals in applicable construction and general business practices. ICPI has developed, implemented and made available several distinct certification programs - Level I and Level II Concrete Paver Installer Certification, Level II Graduate Program, and the PICP Installer Technician Certificate Program.

With respect to each of the above referenced certification programs, ICPI certifies only that the certificate holder has completed the required course of instruction and earned a passing grade on the examination administered by ICPI at the conclusion of the course, which passing grade is required to receive the certification. ICPI exercises no control or direction over the certified concrete paver installers and does not in any manner endorse, guarantee or certify the performance or quality of services rendered or products used.

ICPI, its officers, directors, employees and volunteers disclaim any and all liability for any claims, actions, causes of action, damages, injuries or losses to persons or property, including direct, indirect, incidental, consequential or punitive damages, judgments, attorneys' fees and court costs arising out of, resulting from, or related to the use of services of a certified concrete paver installer, the quality or performance of materials used in connection with the work, and/or the outcome of any interlocking concrete pavement jobs or projects. ICPI further disclaims all warranties of any kind, either express or implied, including, but not limited to implied warranties of merchantability or fitness for a particular purpose with respect to the quality or fitness of interlocking concrete paver materials purchased by the user, and/or with respect to the qualifications, abilities or quality of work performed by a certified concrete paver installer.
